

# TOUCH YOUR FUTURE

**MEDİPOL**  
**UNV-ISTANBUL**  
ISTANBUL MEDİPOL UNIVERSITY

# Look the World through Medipol!

It is a beautiful experience to be a student in Istanbul. Also it's good to be student at the Istanbul **Medipol** University as it is open for improvement, accompanied with spirit of entrepreneurship and dynamism, strong staff, personal and its' social facilities and location in the hearth of Istanbul.

In this magnificent city where two continents connected and which hosted great empires throughout the centuries, our university opens its doors to the students from all over the world, as it aims to be one of the leading universities of the world, not only in Turkey as we always aim further success.

You will be directly included in the scientific and cultural activities and you will take your courses from competent academicians. **Medipol** University adopts it as a principle, to raise individuals who focus on science and technology and feel the responsibility to contribute to the society and international science.

“Would you like to look at the world through Turkey, Istanbul  
and **Medipol?**”

## To be a university student in a global city which inspires the poets

In Istanbul, the color of the sea differs at every hour of the day. Same like its thousand years of history and its colorful culture, it is a mix of variety and pluralism. As a city where you can find cultural facts both from East and West at the same place and where you can meet a surprising view at any time, as a city which requires more than a lifetime to be discovered, Istanbul is an international student city that provides opportunities in educational, cultural and business areas. As Turkey invests significant amount of its' budget into education, it opens its' doors to the most successful and talented academicians and student who are excited to study.

### Living in Istanbul, Living the Istanbul!

The city of civilizations, Istanbul has land both in Europe and Asia. Metropol's campuses are located at the both side of the city which is divided by the Bosphorus in two parts. The Golden Horn Campus is located at the crossing point of the Halic coast and Unkapanı Bridge in the historical peninsula of the Istanbul which is surrounded by the historical city walls which was made by Byzantium Empire. The Kavacık Campus which is located at neighborhood area near the Bosphorus of the city which was the capital of Byzantium and Ottoman Empire and is also known as the most beautiful and big city of Turkey, is backed by the Kavacık forest and shines out with its modern architecture and extensive facilities which make the life easier and comfortable for the student. In the South Campus, the students have more options as it has sports facilities, dormitories, shopping malls, cafes and restaurants, conference halls, culture-art structures, library and research laboratories.

## A Gate to Scientific Research

**Medipol** University has many laboratories with modern standards which prioritize the scientific research.

Center for Regenerative and Restorative Medical Research (REMER), Center for Traditional and Complementary Medicine Research and Application (GETTAM), Center for Mediterranean Studies (AKAM), Bio-Law Practice and Research Center, IT Law Practice and Research Center, International Law and Foreign Policy Practice and Research Center are some of the centers included in the University. The Library of **Medipol** University has a comprehensive database which consists of many sources in various languages.

## Academic Staff

The **Medipol** University stands out with its' specialized academic staff. In our academic staff, the academicians are striking who come from various countries of the world and through reverse brain drain and who has significant studies in international areas.

## International Students

Nearly **420** foreign students are studying in the **Medipol**. Also the Turkish students who live in Europe primarily prefers the **Medipol**.

The foreign students are mostly interested in studying at the Medicine, Dentistry, Pharmacy, Physiotherapy and Rehabilitation, Nutrition and Dietetics departments of the **Medipol**. In order to be accepted by our university, it is required to apply our university through a diploma of high schools within the scope of provision published by the Board of Higher Education (YÖK) or through the internationally accredited examinations (SAT, ACT, IB, Abitur, Baccalaureate etc.) providing that completing the high school education successfully.

## School of Engineering and Natural Sciences

Within the scope of its vision towards raising scientist through its large academic staff, our faculty which develops cutting-edge technologies and which is one of the leading faculty with its per academican project number and fund amount in Turkey, is waiting for the individuals who can keep up with this dynamism and who has dreams.

## In Turkey, the Medicine and Health Education is our job!

It might sound like a very challenging statement, but it is true. **Medipol** Education and Health Group provides education for all the health professions through its strong infrastructure. The students of the Faculty of Health, complete their educational period with the possibilities for practicing in the **Medipol** Health Group which provides health services actively in seven hospitals located at both sides of Istanbul. Our students in the Faculty of Health Sciences don't need to search for internship institution; their internship institutions are provided by the Faculty Commission.

### Learn, Research, Apply in Medipol Medicine!

**Medipol** Medicine combines the 'education', 'research' and 'hospital practice' facilities through **Medipol** Mega University Hospital and REMER which is one of the best research centers of Turkey. We support successful students of our faculty for their English Preparation Education at the contracted institutions in United States of America. Furthermore, each student has one advisor, as our faculty is above the average of Turkey with regard to the number of instructor per student.

### International School of Medicine (ISM)

The **Medipol** ISM which enables its' students to research at the international level, is the only faculty which has 3 characteristics required for raising successful students; an infrastructure which enables them to be a scientist, English education which brings them to native speaker level, possibility to have experience at abroad and to have network with the professionals at abroad. Our students who complete the 4th class with great success, can complete their internship period and can be observer in the researches at the Harvard University, within the scope of the agreement signed by our university.

# Study the Humanities and Social Sciences at the Crossroad of East and West!

For the ones who want to be the best in their profession, it is possible to study human sciences at this faculty that includes the best scientists in every discipline, as it is located in a city which is a magnificent observation and examination area in social sciences beside its' beauty. Our successful students can also study at master and joint doctorate degrees.

## Medipol Media Center

The **Medipol** Media Center which is included in our School of Communication, provides any kind of possibilities to the students who want to have media education, through its TV studio, radio station, student newspapers, GreenBox area, editing stations, cinema, recording studio, news center and mobile video mixing studios.

## A new perspective towards Architecture, Design and Fine Arts

Our School of Fine Arts, Design and Architecture provides unique and ambitious education in the 6 different design departments through combining interactive and integrated course plans with the interdisciplinary and trans-disciplinary studios. Our students who organize "Design-Do" workshops in domestic and abroad locations, created award winning project even while they are in the study period.

## The Largest Simulation Laboratory of Turkey

Our simulation laboratories are established in order to ensure our dentistry students to gain required hand skills and clinical competency during their educational period.

## Language School

In the Istanbul **Medipol** University the medium of instruction is Turkish and English. The ratio of the medium of instruction varies depending on the faculty and department. The students of all the departments which has no compulsory preparation program, have right to register at the English Preparation Program optionally. The English Preparation Program which consists of four level, serves for the students who study their lessons in English in order to ensure them to be equipped with the skills of using foreign language effectively.

## Dormitory Facilities

The girls' and boys' dormitories with the capacity of **2.500** students, which are located at the Kavacık North and Kavacık South Campuses; are equipped with smart building systems like all other education buildings in these campuses. In the dormitory rooms which are equipped with study tables, bookshelves and cabinets, and clothes cabinets with password locks, there are also bathroom, WC, mini fridge and shoe cabinet; and the wi-fi service is provided for free. The dormitory has its' own dining hall, mini kitchen and canteen; and the sport saloon is also provided for our students. Bed, duvet, pillow and bed linen are provided and cleaned periodically by the dormitory administration.

## Erasmus

The students are able to complete one or two semester of the academic year or at least two months of their internship at any agreed higher education institutions or business institutions within the scope of the Erasmus exchange program. The students don't pay educational fee at the universities where they go for Erasmus program. Besides, the students can apply for Erasmus grant in order to be supported for their living expenses at abroad.
